Lora Ross (ARC)
Bob Gibbs
Kirk Storey
Stephen Walker
Richard Croker
Chris Wills (WAM)
Carl Temm (WAM)

Apologies: Mark Drury (Peer Review Panel)
Mike Kunzli
Bill Earwaker
Charlie Earwaker

Minutes of Previous Meeting:

Minutes were circulated by mail prior to this meeting. Minutes of the previous meeting (26 March 2007) were accepted as correct (moved Richard, seconded Bob).

Matters arising from minutes:

Noise: Consultants report on noise survey (by Hegley Acoustic Consultants) was circulated at the meeting indicating compliance with the resource consents. Chris discussed the likely construction of a bund behind the gas plant to act as a future noise buffer.

Kirk indicated that he still had issues with noise at his residence through the night.

Leachate recirculation application: Still being processed.

Correspondence:

Diane Kerr – letter of acceptance from her to join Orewa Primary Trust Board.

Operations report:

Complaints: The complaints list received at the landfill from March was tabled. The list included the record of week day and time of complaint. No pattern was apparent between the time or day of odour complaints.

Refuse filling: Refuse filling in the new cell in the south eastern part of the landfill footprint was described. Filling will continue there for some months with two tip faces initially in operation to permit selected refuse to be directed down into the new cell.

Energy: Chris described the serious damage encountered in recent times with two engines down for the last six weeks. Current flow was 6-7,000m³/hr of landfill gas.

Site Development: Construction is virtually complete for this season.

Property: No changes.

Peer Review Report: Not discussed.

General Business:

Site visit: Ross wanted it recorded that the recent visit to the landfill by the RDC CEO was appreciated.

Greenhouse:

The option of diverting landfill gas to a local greenhouse operator was now not proceeding.

Next meeting: 7pm Monday 22nd September 2008 commencing with a site tour.

Meeting closed at 8:15pm.
