

Battery recycling

Step 1:

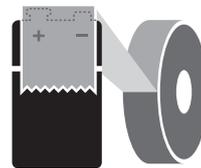

Check that your battery is accepted.

- ✓ Lithium ion:
e.g. rechargeable batteries
- ✓ Nickel cadmium
- ✓ Alkaline:
e.g. AA, AAA, 9V, C, D, N, button
- ✓ Zinc air:
e.g. camera batteries
- ✓ Silver zinc:
e.g. laptop and hearing aid batteries
- ✓ Household power tool batteries
- ✓ Electronic device batteries
- ✓ Mobile phone batteries

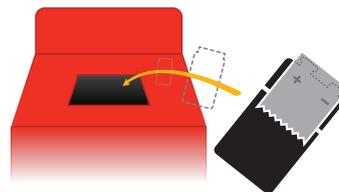

Step 2:

Tape lithium battery terminals. Other batteries, taping recommended but not required.

Step 3:

Place battery into opening of provided battery pail.

Batteries not accepted for recycling:

- ✗ Truck and car batteries:
e.g. lead acid
- ✗ Electric vehicle (EV) batteries
